### PERSONAL PROJECTS

#### Bank Mangement System - [2020]

- This is the Java project that I completed. In this Bank-Management-System, there has an Employee class, a Customer class, and two types of Accounts.

#### Housing Management System For Aiubian's - [2021]

- As part of my undergraduate studies, I completed a WebTech project. Here I used Html, Php, Css, Js, and MySql.

#### Army Camp- [2021]

- I worked on a computer graphics project here. With C++, I constructed a day, night, evening, and rainy mood scenario. In this project, I also included a sound system.

#### Super Shop - [2021]

- This is a C# project I did as part of my undergraduate studies. I worked on a super shop management system there. I used C# and MySQL there.

#### Pharmacomedical- [2022]

- A detailed application for healthcare that I completed during my undergraduate studies. Here, I used MySql, React, and the Laravel web application.
