PERSONAL PROJECTS

Super Shop - [2021]

- This is a C# project I did as part of my undergraduate studies. I worked on a super shop management system there. I used C# and MySQL there.

Housing Management System For Aiubian's - [2021]

- As part of my undergraduate studies, I completed a WebTech project. Here I used Html, Php, Css, Js, MySQL.

Online School Management System - [2021]

- A complete school management solution made for the web along with a portfolio site.
 - HTML, CSS, JS, PHP, MySQL

Army Camp- [2021]

- I worked on a computer graphics project here. With C++, I constructed a day, night, evening, and rainy mood scenario. In this project, I also included a sound system.

Smart Way to Control Home based on Sensor - [2022]

- This is my Microprocessor and Embedded Systems project. There I did a sensor-based home automation system.

WORK EXPERIENCES

Back-End Web Developer
[Retriko](https://retriko.com)
09.2020 - 12.2022
Dhaka, Bangladesh
